## **DETAILED ACTION**

### ***Election/Restrictions***

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claim 9-15, drawn to a camera with a display, classified in class 396, subclass 296.
- II. Claim 6, 8, 17-19, drawn to liquid crystal display with a polarizer or a parabolic reflector, classified in class 349, subclass 62.
- II. Claim 16, drawn to a camera with a parabolic reflector, classified in class 396, subclass 296.

The inventions are distinct, each from the other because of the following reasons:

Inventions II and I are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination (has no polarizer and/or has a linear light source) as claimed because an LCD with can be used. The subcombination has separate utility such as in a calculator or non-single lens reflex camera.

Inventions III and II are independent distinct as evidenced by claim 9.

Inventions III and I are independent and distinct as evidenced by claims 6, 17 and 18

Because these inventions are distinct for the reasons given above and the search required for Group III and II in 349 is not required for Group I, and the search in 396 for groups III and I is not required for group II, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
